INDUSTRY ERP

Hardware Sector ERP

Accounting ERP for kitchen, glass fittings, door hardware & profile trading companies with sales order and invoicing modules.

Key Features

- Suited for kitchen, glass fittings, door hardware & profile trading companies
- Accounting software along with different modules

Key Utility Features

- User wise login & rights assignment for each & every choice, with option to import user rights from one user to another
- Multiple screen/window/menu at a time can be opened, kept open & switched from one to other
- All standard accounting daybooks & final account statements
- Reports generated & mailed in Excel or PDF format, with company logo in the signature
- Excel-like filtering, column swapping, hide/unhide, wrap/un-wrap and sorting for almost all screens
- Unique auto entry module to generate random entries at one shot with randomized amount selection
- Account master details & accounting entries copy/paste functionality
- Narration master with auto previous narration
- Import/edit account or item details (including item images) in one shot from Excel
- Cost center functionality & reports, with drilling from report grid to entry level
- Reminders module for day to day tasks, shown on startup and at scheduled intervals
- Module wise document attachment, configured per activity
- Document tracker with scan, attach, remove & view support for accounting entries
- Entry analyses with selective lock facility (document wise), statistics reports, and entry list report with created/modified columns
- Database backup facility (auto schedule or user friendly)
- Data transfer facility from last year to current year for masters & closing balances
- Bulk SMS & bulk email as per criteria selected

Unique & Strong Feature for Customized Report Building

- Build & save report criteria for future use
- Schedule reports to be e-mailed daily, weekly, monthly, quarterly, six monthly or yearly to selected recipients
- Reports arrive by e-mail on the scheduled day & time without needing to be requested

Key Functional Features

- Additional masters: item group, item sub group, items, item scheme, item godown & item family
- Different scheme functionality for discounts & free sale
- Sales order entry with PDC & outstanding due management, credit limit checks (order blocked if outstanding exceeds pre-defined party wise limit), pending order tracking & reports
- Sales invoice created directly from order in a single shot, with customized invoicing, auto SMS & email to party on invoice creation, and invoice printing on letterheads
